NOTES

For all participants in Seasonal Matches:

As mentioned under "ENTRY FEES" on page 1, the same firearm must be used in all sessions of a season match if the competitor is to be qualified for the aggregate award.

For all participants in any match:

We request that each data sheet be completely and legibly filled out when the targets are sent in for scoring. A designation such as "same" will not suffice. We ask for your cooperation in this matter.

Especially for newcomers to the postal matches:

In regard to the numbering system, match numbers are currently 1 through 21. The 16th match, for example is the Lever/ Pump/ Auto Benchrest Match. The individual targets and the corresponding tech data sheet for this match are numbered in sequence as "1601, 1602, 1603" and so forth, representing the first, second and third sets of targets sent out to the competitors.

MATCH # 16

CLASSES FOR POSTAL MATCHES ONLY

RIFLE CLASSES:

Production: Factory-produced rifle with original barrel, trigger, action, chamber and stock. Weight with scope = 12 lbs. or less. Throating, bedding, free-floating are permitted, and trigger may be smoothed / lightened. Rifle using an original issue military action and barrel and meeting the weight limit may be fired in the production class with no other restrictions.

Heavy: Any rifle with sights weighing less than 14.0 lbs.

Unrestricted: Any rifle without restriction to its weight, stock configuration, or guidance means. Bullets need not be fixed in case.

MILITARY RIFLE CLASSES:

Issue: Military service rifle of any nation. Rifle must be strictly as issued: no modifications.

Modified: Military service rifle of any nation. Rifle must have original receiver and issue barrel, while stock, trigger and sight may be modified. This class is divided into scope (maximum power 6X) and iron sights.

Carbines: Any issue carbine of any nation as long as there is a corresponding long rifle manufactured and in use at the same time or any issue military rifle with a barrel length of 21" or less.

The carbine class will have the same issue, modified iron and modified scope classes as the military rifle category.

Other rifles: For matches #10, #13, #14, #15, #16, #18, #19 and #20, see the individual descriptions for the definitions of allowable rifles.

PISTOL MATCHES

Pistols may be used in:

Winter Benchrest	Match # 1a
Winter Offhand	Match # 2a
Spring Ice-Breaker	Match # 4a
Spring Warm-up	Match # 5a
Season Pistol Benchrest	Match # 6a (also see p. 8)
Season Offhand	Match # 9a
Little-Bore Benchrest	Match # 12a
Mid-Bore Benchrest	Match # 14a
Big-Bore Benchrest	Match # 15a
Deer Hunter Practical	Match # 17a
200-Yard Combined	Match # 18a

SIGHTER TARGETS: These are sent together with the record targets, and are for the use of the competitor and need not be returned. You may shoot an unlimited number of sighter shots at any time during the course of the match as long as you meet the time requirements.

BULLETS: Bullets must be cast of a lead alloy; they must be fixed in the neck of the centerfire cartridge case except for the Single-Shot Match #13 and in unrestricted rifles. Gas checks may be used on the bullets except for Single-Shot Match #13.

SIGHTS: In all matches, iron sights will compete against iron sights, scope against scope, unless match is designated as an "any sight" match. Unless scope power is specifically limited in the individual match data, there are no maximum power limitations.

CONDITIONS: All matches are to be fired during the daylight hours on an outdoor range. In all group matches, the location of the group on the target is immaterial.

POSITIONS:

Benchrest - -Fired from benchrest with sandbag or conventional pedestal rest.

Offhand - -Fired from standing position. Sling, palm-rest, hook buttplate, etc, may be used except in the Military Offhand Match #11 and the Deer Hunter Practical Match #17. See individual match data for description of offhand rules for these matches.

GENERAL INFORMATION

HOW TO ENTER: Current CBA members desiring to enter
should send appropriate fees to:

CBA Postal Match
1718 E College St
Iowa City, IA 52245

*stating the name of the match(es) desired, sights to be
used (i.e., whether scope or iron), and whether for
score or group.*

REPORTING: Entrants will send the fired targets with the
completed Technical Data Form to the appropriate scorer
as listed in the individual match data. Return must be
postmarked no later than the specified Target Return
Date. First - class mailing is recommended. Please allow
extra time for mailings from foreign countries.

SCORING: The scoring will be conducted by the Directors
of Postal Competitions or their designees. Please do
not plug targets before mailing.

AWARDS: Monetary awards will be made to at least the
top competitor in the class, except when there is only
one competitor registered. Additional awards will be
made based on the number of entrants. All first-place
winners will receive an award certificate. Match
results and technical data will be published in **The
Fouling Shot** and mailed to the match winners with their
awards.

ENTRY FEES: The entry fee for each match is listed in
the individual match data. Checks to be made out to
"CBA Postal Match" in US funds. Please add additional
funds for foreign orders. If the match is a season
match, entrance in the full season will qualify
entrants for the aggregate awards, but all targets in
any one match and category must be shot with the same
firearm. However, different loads and/or bullets may
be used. Season fees are based on the single-month fee
times the number of months. Appropriate targets will
be sent to the competitor upon receipt of the entry
fee. Multiple entries in a match are allowed only if
multiple guns are used; or if scope and iron sights are
allowed, then the same gun may be used with different
sights.

Light Production Class Specifications:

A factory produced rifle manufactured in a quantity of at least 1,000 units over any 12 month period. Rifles produced by a manufacturer custom shop are prohibited. Rifles using an original issue military action and barrel and meeting the Light Production Rifle Class weight limit are allowed.

Factory sights may be removed, but all other parts, including detachable magazines, must be present and functional when the rifle is weighed or fired. Maximum weight limit is 9,5 lbs. (4.3 Kg.). Modifications judged to have been made specifically to allow the rifle to meet the weight limit are prohibited. The barrel may be shortened only from the muzzle to facilitate re-crowning, but the barrel's exterior contour may not be altered. The barrel must be chambered for its original cartridge and the chamber, including the neck, must conform to SAMMI specifications. Factory action, barrel, stock and trigger appropriate to the model must be used. The trigger may be adjusted and the barreled action rebedded. Buttstocks may be shortened up to one inch to fit shooter, but the factory stock contour may not be altered. Factory parts may be exchanged, however a reconfigured rifle must duplicate a factory produced model. Alterations not specifically allowed above are prohibited.
